GracePulse

PLATFORM OVERVIEW · 2026 EDITION

Two tools. One thriving church.

Church software built for how ministry actually works. Replace the paper bulletin and make sure no first-time guest or new convert is ever forgotten. Subscribe to one product or both.

VVIG

Guest & new-convert follow-up. QR sign-up, automated SMS / Telegram / Email messages, and human follow-up teams that call every guest for 4 weeks.

vvig.gracepulse.net

PaperlessPew

The digital church bulletin. Sermon notes, events, announcements and giving goals on one mobile page your members open with a single QR scan.

pew.gracepulse.net

VVIG guest follow-up is in use at **House on the Rock, The Refuge, Abuja**.

AT A GLANCE

Built for the two moments that matter most.

Most churches lose people in two places: the first-time guest who visits once and is never contacted again, and the member who misses what's happening because it was only in a paper handout. GracePulse fixes both, with two focused products that work on any phone and need no app download.

VVIG

Guest & new-convert follow-up

- 4 sign-up links with QR codes: Visitors, New Converts, Non-Members, Online Stream
- Instant welcome message, then automated follow-ups on Day 7, 14, 21 & 28
- SMS, Telegram and Email, in the channels each guest chooses
- 5 human follow-up teams with auto-assigned calls, deadlines & reward points
- Guest pipeline, analytics, house-fellowship matching and reports

PaperlessPew

The digital church bulletin

- One public page, one QR code, always up to date
- Sermon notes with scripture, preacher & video, plus a searchable archive
- Events, announcements (general, prayer, info, urgent) & Theme of the Year
- Giving goals with live progress bars
- One-tap WhatsApp sharing, plus email updates for subscribers

WHY CHURCHES CHOOSE GRACEPULSE

Fair, regional pricing

Pricing adjusted for purchasing power. A church in Lagos pays in Naira at a local price, not Silicon Valley rates.

Nothing to install

Guests and members use their own phone's camera and browser. No app downloads, no accounts for them to create.

Live before Sunday

Sign up in minutes, print your QR codes, and be running before your next service. No IT department needed.

Built for ministry

Not a generic CRM. New-convert discipleship, follow-up teams, house fellowships and sermon notes are built in.

Your data stays yours

Visitor and congregation data is never sold or shared with third parties. Export it any time as CSV or PDF.

Real human support

Chat with the GracePulse team directly on WhatsApp from any page, or email hello@gracepulse.net.

VVIG · GUEST & NEW-CONVERT FOLLOW-UP

Never lose a first-time guest again.

Every visitor and new convert is captured in under a minute and followed up for four full weeks by automated messages *and* by real people from your church, so nobody slips through the cracks.

How a guest moves through VVIG

1. **Scan & sign up** — Guest scans your QR code and fills a short form on their own phone
2. **Welcome** — A personalised welcome message goes out instantly
3. **Auto-assigned** — The card is handed to the right follow-up team member, with no manual sorting
4. **4 weeks of care** — Automated messages plus a personal call every week
5. **Home** — New → Contacted → Returning → Member

Four sign-up links, four QR codes

Each link has its own printable QR code, ready on the Settings page. Post them at the entrance, the altar or the welcome desk, or pin them in your live-stream chat.

- **Visitors (Membership card)**
  For first-time guests. Routed to **Team Membership** and the Visitor message sequence.
- **New Converts**
  For people who just gave their life to Christ. Routed to **Team New Converts** and the scripture-grounded *New Creation Realities* series.
- **Non-Members**
  For guests not yet looking to join. One personal call asks if they'd be open to membership; "yes" moves them to Team Membership.
- **Online Stream**
  Pin it in your YouTube / Facebook live chat. Viewers choose: gave their life to Christ, want to become a member, or just watching. Each sign-up is tagged **Online Stream**.

What happens in the first 28 days

	DAY 0 · WEEK 1	DAY 7 · WEEK 2	DAY 14 · WEEK 3	DAY 21 · WEEK 4	DAY 28
Automated	Welcome message	Follow-up message	Follow-up message	Follow-up message	Follow-up message
Human team	Card assigned · call 1 within 72h	Call 2	Call 3	Call 4	Follow-up complete

Message days and wording are fully editable per sequence. The call deadline is 72 hours by default (48 or 96 configurable).

VVIG · AUTOMATED FOLLOW-UP

The right message, on the guest's own channel.

Guests choose how they'd like to hear from you. VVIG personalises every message by name and rotates across every channel they picked, so the follow-up feels warm, never robotic.

SMS

Via your own TekSMS account (Nigerian numbers) or CheapGlobalSMS (worldwide). Live balance shown in Settings.

Telegram

Free messaging through GracePulse's shared Telegram bot. The guest connects with one tap from the thank-you page.

Email

A longer, richer version of each message for guests who prefer their inbox.

Personal phone call

A flag for your team to call. Human follow-up is always on, even for guests who opt out of automated messages.

Messenger & Instagram

BY REQUEST

Connect your church's Facebook Page and Instagram account. Rolled out church-by-church.

Respectful opt-out

"Please don't send me automated messages" stops every automated channel in one tick.

Welcome message

Sent the moment someone signs up. Write your own short version (SMS / Telegram) and long version (Email), or use the friendly default.

EXAMPLE

Hi **{name}**, thank you for worshipping with us at **{church}** today! We're so glad you came. Someone from our team will be in touch this week. God bless you!

Placeholders: {name}, {church}, {phone}, {email}, {address}

Two follow-up tracks

- **Visitor sequence:** a warm 4-week series inviting guests back and into community.
- **New Creation Realities:** a separate scripture-grounded series for new converts, not just a "come back next week" reminder.
- One click creates a ready-made 4-week sequence; edit any step's day and wording any time.
- Turn sequences on or off without losing your wording.

SMS Wallet (Nigeria)

Fund pay-as-you-go SMS by card (Paystack) or bank transfer. Transparent per-message pricing.

VVIG · HUMAN FOLLOW-UP

Real people. Real calls. Every week.

Automated messages are only half the story. VVIG organises your church's volunteers into follow-up teams, hands every new card to the right person automatically, reminds them to call, and tracks every outcome.

TEAM	SEATS	ROLE
Team Membership	Up to 40	Calls every visitor working toward membership, every week for 4 weeks.
Team New Converts	Up to 20	Walks every new convert through their first month in the faith.
Team Non-Members	Up to 20	One call to local non-member guests. Outcomes: open to membership (moves to Team Membership), decided not to join (all contact stops), or undecided.
Team TRA	Up to 5	Read-only oversight: view, search and download every membership guest, plus a full analytics dashboard.
Team FC Directorate	Up to 5	The same read-only oversight access, for leadership review.

Automatic, fair assignment

The moment a card is created it goes to the right team. New cards go first to members who are free, then to whoever has the lightest load, so no card ever waits.

Deadlines & reminders

Each caller gets a text the moment a case is assigned, and again in weeks 2, 3 and 4. Call deadline: 72 hours by default, adjustable to 48 or 96.

Every call logged

Outcomes: Contacted, Phone Not Reachable, Ringing But Didn't Pick, Busied the Call, or Others, plus a short written summary.

Team Leads

Up to 4 leads per team see every open case (past-due first), reassign cards, end follow-ups and mark teammates away. One daily text when calls go past due.

Away, back & disable

Mark someone away when sick or travelling and their cards move instantly to teammates with the lightest load. Disable a member who leaves and their seat is freed.

Own secure login

Team members get their own login by text and email. They only see the guests assigned to them, never your full dashboard. Any member can add cards on a busy Sunday.

5 pts
per on-time call

Reward points & quarterly leaderboard

Callers earn 5 points for every call logged before its deadline, up to 20 per guest. A Points Leaderboard, filterable by quarter, makes it easy to recognise your most faithful callers.

VVIG · INSIGHTS

Know exactly who needs a call, and where your guests come from.

A live dashboard and detailed reports turn Sunday sign-up cards into decisions your pastors and leaders can act on.

New
Just signed up

Contacted
Reached by the team

Returning
Came back again

Member
Now calls it home

Visual analytics dashboard

Live charts of guest type, status and top general areas, updated as sign-ups arrive, right on your dashboard home.

Reports with period comparison

Pull reports by week, month, quarter or custom range and compare one period against another. Export to CSV or print to PDF in one click.

See where guests really come from

General-area tracking shows which neighbourhoods your visitors live in, so outreach and adverts go where they'll work.

House-fellowship matching

Fellowship leaders save their location from their own simple login. Each guest is shown the nearest active house fellowship, with distance, ready for an invitation.

Follow-up & team reports

A dedicated follow-ups report plus separate Team Membership, New Converts and Non-Members reports: every call, outcome, on-time result and points earned. Exportable.

Instant alerts

Get an email the moment a guest signs up, or a webhook to Slack, Discord or Zapier. Off by default, on in one click.

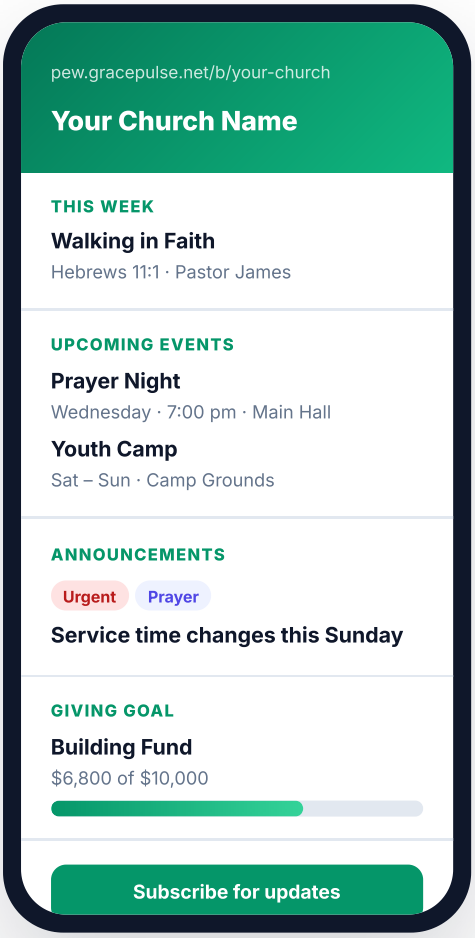

Manual entry when you need it

Not everyone has a phone on them. Admins, and any team member from their own dashboard, can type a card in directly. Who types it in never affects who it's assigned to.

PAPERLESSPEW · THE DIGITAL CHURCH BULLETIN

Replace paper bulletins with a living digital hub.

Update once and everyone sees it instantly. Members scan one QR code to read sermon notes, upcoming events, announcements and giving progress on their own phones.

What your members see

One link, one QR code, no app download. Share it on WhatsApp, social media, or print it at the entrance.

- **Sermon notes**

  Title, preacher, scripture reference, full notes and a banner image, plus YouTube, Facebook or Instagram video. Past sermons live in a browsable archive.

- **Upcoming events**

  Services, prayer nights, youth events and retreats with dates, end dates, location, photo or video.

- **Announcements**

  Labelled General, Prayer, Info or Urgent, each with its own photo or video.

- **Giving goals**

  Visual progress bars for building funds, missions and projects, with target, amount raised, deadline and your currency.

- **Theme of the Year**

  One featured image for your church-wide theme or scripture focus, shown across your page.

PAPERLESSPEW · BEHIND THE SCENES

Publish in minutes from any phone or computer.

Your church team manages everything from one simple dashboard. Changes go live on your public page the moment you save, with no reprinting and no re-announcing.

Printable QR code

A ready-to-print QR code linking straight to your bulletin page, for the entrance, notice board or Sunday programme.

Subscribers & email updates

Members subscribe once from your page. Send an update to your whole list in one click. They can unsubscribe any time.

Team access

Invite staff and volunteers by email to help publish content, and assign their role once they join.

Your church's brand

Church name, logo, contact email, phone, website and description at the top of your public page.

Photos & video everywhere

Sermons, events and announcements accept images plus YouTube, Facebook and Instagram video links.

One-tap WhatsApp sharing

Share any sermon, event, announcement or giving goal to your church WhatsApp groups with a ready-made message and link. Free.

AI Compose

COMING SOON

Type rough notes about an event or announcement, and AI Compose drafts warm, ready-to-publish copy for four channels at once:

Bulletin text
Clear and complete for your digital bulletin.

Social caption
Punchier for Instagram or Facebook, with hashtags.

WhatsApp broadcast
Short and conversational, with a call to action.

Email newsletter
A warm, personal paragraph for your inbox list.

PRICING

Transparent, regional pricing.

Every plan starts with a **30-day free trial, no credit card required**. Subscribe to one product or both, independently. Nigerian churches pay in Naira; every other country pays a flat US-dollar rate. Pay longer up front and save.

VVIG

- Pay with Paystack, PayPal or Squad

No credit card to start

Try everything free for 30 days. You only pay if you decide to continue.

Cancel anytime

No contracts and no setup fees. Your data is always exportable.

Fair for every country

Prices adjusted for purchasing power, so every church pays a fair local rate.

Prices shown are current as of October 2026 and may change. See gracepulse.net/#pricing for the latest.

GET STARTED

Live before your next service.

No IT department and no app to install. Most churches are set up in under 30 minutes.

Starting with VVIG

1. **Register your church**
   vvig.gracepulse.net/register. Verify your email and you're in.
2. **Create your sequences**
   One click each for Visitors and New Converts. Edit the wording any time.
3. **Add your follow-up team**
   Enter names and phone numbers; each member gets their own login by text.
4. **Print your QR codes**
   Place them at the entrance and altar. Your first guest card does the rest.

Starting with PaperlessPew

1. **Register your church**
   pew.gracepulse.net/register. Under 60 seconds, no card needed.
2. **Add your logo & profile**
   So members instantly recognise your page.
3. **Post this week's bulletin**
   Sermon notes, events and announcements. Publish with one click.
4. **Share your QR code**
   Print it, project it, or send the link on WhatsApp.

Better together

Use PaperlessPew to keep your congregation informed every week, and VVIG to make sure every new face is welcomed, followed up and brought home. Same company, same support team, and each product subscribes independently.
